

Innovation Day 2024: New Horizon, New Heights

18 July 2024

Innovation Day 2024, our objective is to collect inspirational ideas for the ongoing development of our technology pipeline. Leading and presenting by three inspirational trailblazer teams, our technology pipeline committee was inspired by multiple ideas.

Comfort and fit solutions continue to be our core focus and all 3 teams have shared worthy ideas which the design team can further ideate.

Taking a new approach this year, we have formed each team with cross functional experts where ideas presented are innovative, practical and give new dimensions to what is already commercialized.

From the abundance of good ideas, we believe Top Form is fully equipped with another year of great concepts to co-create with our customers on their next best seller.

Let's seize the opportunities of tomorrow with curiosity, courage and creativity!
