

Top Form Indonesia's Back to School Programme empowers over 300 elementary students to access quality learning experiences

17 June 2024

Before the start of the next school year, Top Form Indonesia has partnered with local education authorities to identify the needs of local schools and students and launched a Back to School Programme in Ngeemplak Village in Karangpandan, Central Java that benefited over 300 local students. The programme aims to strengthen their educational outcomes by distributing tailor made essential "Education Kit" which included brand new school bag, notebooks, and stationery, and "Sport Equipment" to promote an active and healthy lifestyle.

A big thank you to our volunteers and local stakeholders, especially the village head of Ngeemplak village who helped coordinate and successfully completed the distribution of the kits to the hands of the needed students. We look forward to continuing collaboration with local stakeholders to bring positive changes to our community.
