

## Top Form Support the FHKI x HKSTP “Innopreneur Experience Journey” Cohort 3

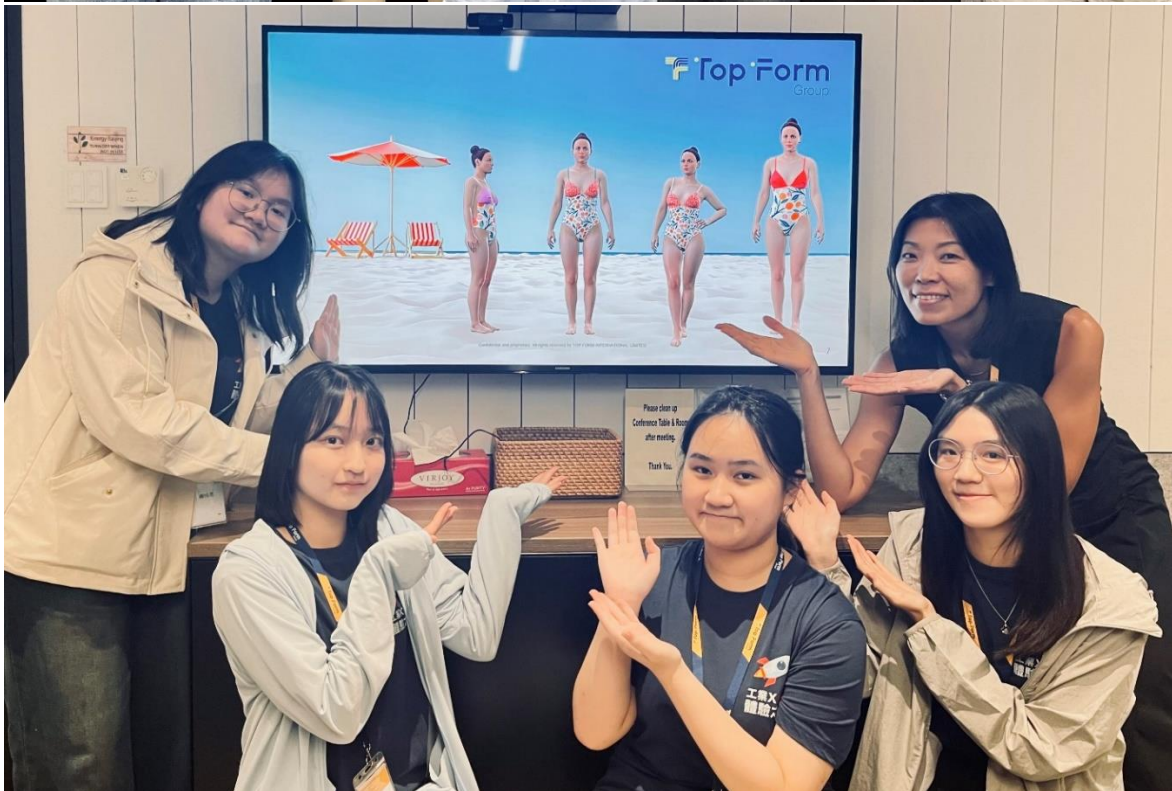

18 July 2024

This is the third year Top Form has supported the “Innopreneur Experience Journey,” co-organized by the Federation of Hong Kong Industries (“FHKI”) and Hong Kong Science & Technology Parks Corporation (“HKSTP”). With the aim of cultivating students’ passion for innovation and technology, broadening their horizons, and preparing them for further studies and future careers.

Four students from local secondary schools participated in this unique summer journey at Top Form. They were given the opportunity to learn about our industry and experience basic technical training for fitting, 3-D and AI drawing, as well as material sourcing.

Thank you to our cheerful team for supporting this meaningful journey.
