CHAIRMAN'S STATEMENT

The results of the Group for fiscal year 2014/2015 are in line with our expectations. We continue to mitigate the challenges confronting us in our complex and ever changing business environment. After taking out the effect of a one-off gain of HK\$18.5 million on disposal of the properties recorded in last fiscal year, the Group recorded an increase in both sales and after-tax profit from our core OEM business during the year.

In responding to the escalating costs pressure and dwindling supply of labor force in China, we have followed our stated strategy to expand the capacity overseas and lower the proportion of our China capacity. The capacity ratio of China versus Overseas has been changed from 49%:51% in the first half to 44%: 56% in the second half of fiscal 2015.

We will continue to build up the capacity of the Thailand plants where substantial investment on the manufacturing facilities has been made in previous years. The dispute between the Cambodian government and the labor unions and the operating environment in Cambodia appears to be stabilized. The Group has started to recruit additional headcounts to expand the capacity in Cambodia. Whilst the Group continues to build the capacity overseas, we still maintain the capacity of our plants for high value, skill demanding and short lead time orders in China where the skill level of the labor force is more sophisticated and the supply chain and logistics infrastructure is more comprehensive. In the coming year, it is expected the proportion of production from overseas plants will increase to over 60% of our global capacity whilst the proportion of production from China plants will continue to reduce.

Looking ahead to the next twelve months, the global economy and the business environment remains volatile and uncertain. The trade sanctions between the EU and Russia, the volatility of the equity and currency markets, and the ongoing developments of various trade deals are all expected to bring uncertainties in our business and operating environment. We remain cautious in our future. We are mindful of the immense challenges confronting us, in particular of the strong global competition within our trade and the price driven demand of business which continues to add strong pressure to our margin. With a proven track record of being a reliable business partner, our advantage of diversified manufacturing locations and our vital and dynamic executive team, we will continue to work on attracting new business and provide quality service to our long term business partners.

Having considered our cash position and the coming investment needs, the Board has decided to propose a final dividend of HK\$0.05 per share for the fiscal year 30 June 2015 (2014: a final dividend of HK\$0.05 per share and a special dividend of HK\$0.05 per share).

As announced, Mr. Fung Wai Yiu, has retired as the Chairman and I have taken over his role as the Chairman of the Company on 31 October 2014. On behalf of the Board, I would like to take this opportunity to express our sincere gratitude to Mr. Fung for his invaluable contributions to the Group. Under his leadership in the 18 years of tenure, Mr. Fung has turnaround Top Form to a financially robust company. I am pleased to extend the warmest welcome on his continued contributions to the Group on his re-designation as a Non-executive Director of the Company.

With effect from 22 May 2015, I have also resigned as the Group Managing Director while continuing to serve as the Chairman of the Company, and Mr. Wong Kai Chi, Kenneth and Mr. Wong Kai Chung, Kevin have been appointed as the Managing Director and Vice Chairman of the Company respectively. This change continues the succession effort Top Form has put in place over the recent years to rejuvenate its executive team to sustain the vitality and prosperity in the ever changing business environment.

On behalf of the Board, I would like to take this opportunity to thank our employees for their hard work and contributions to the Group over the year.

Wong Chung Chong

Chairman

MANAGEMENT DISCUSSION AND ANALYSIS

The Group's operational focus is in its core Manufacturing activity, together with a Corporate cost centre.

	Revenue		Profit (loss/expenses)	
	2015 HK\$'000	2014 HK\$'000	2015 HK\$'000	2014 HK\$'000
Manufacturing	1,170,468	1,131,696	57,188	60,112
Corporate	–	–	(15,061)	(14,239)
	1,170,468	1,131,696	42,127	45,873

For the year ended 30 June 2015, the Group recorded sales revenue of HK\$1,170 million, representing an increase of 3% compared to HK\$1,132 million of sales revenue in fiscal 2014. After tax profit amounted to HK\$36 million compared to HK\$39.3 million in previous year.

The profit for fiscal 2014 included a one-off gain on disposal of a warehouse facility in Tuen Mun of HK\$18.5 million. After taking out the effect of this gain in fiscal 2014, the current year after tax profit represents an increase of 73% over the adjusted profit for the previous year.

MANUFACTURING

In monetary terms, 56% of our sales were to the US market compared to 53% in the previous year. The EU accounted for 26% (29% in the previous year) and the rest of the world 18% (18% in the previous year). Whilst less than 6% of the sales revenue are received in Euro, the weakening in Euro against US dollar resulted in a foreign exchange loss of HK\$1.8 million recorded in current year. The business remains challenging and price driven.

In the fiscal year, China accounted for 47% of our global capacity, Thailand 47% and Cambodia 6%. Whilst the capacity distribution of the Group for the year remains the same as previous year, the capacity ratio of China versus Overseas has been changed from 49%:51% in the first half to 44%:56% in the second half of this fiscal year.

Gross margin was 19% for the year compared to 18% in the previous year. Average selling price shows a modest increase for the year. Whilst labor shortage and rising labor costs continue to impact the manufacturing operation, this cost pressure has been eased by the favorable currency movements of Thai Baht and RMB against US dollar during the year. Material prices remained stable.

On a half yearly basis, the gross margin declines from 19% in the first half to 18% in the second half of fiscal 2015. Further increase in the mandated social benefit rate in the PRC, increase in statutory minimum wage by 28% in Cambodia from 1 January 2015 as well as the increase in statutory minimum wage in Guangdong province from 1 May 2015 have added cost pressure to our operations. This together with the price driven demand in the business has negatively impacted the gross margin in the second half of the fiscal year.

We have further expanded the capacity in the Thailand plants by adding new headcounts while maintaining the capacity of plants in China for skill demanding products.

The dispute between the Cambodian government and the labor union and the operating environment in Cambodia appears to be stabilized. Towards the end of the fiscal year, we have started to recruit additional headcounts to expand the capacity in Cambodia. Whilst the statutory minimum wage in Cambodia has been further increased during the year, this new minimum wage level remains the lowest amongst our production locations. We will continue to increase the overseas capacity through expansion and improvement in efficiency.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL POSITION

The financial position of the Group remains healthy with shareholders' funds standing at HK\$559 million as at 30 June 2015 compared with HK\$557 million at the previous year end. Bank balances and cash stood at HK\$169 million whilst credit facilities available to the Group amounted to HK\$159 million and gearing remained at an insignificant level.

Capital expenditure during the year amounted to HK\$17.9 million compared to HK\$16.6 million in the previous year.

CORPORATE

The costs attributable to our corporate cost centre for the year amounted to HK\$15.1 million as compared to HK\$14.2 million in the previous year.

OUTLOOK

The recent release of economic data reflects orders demand in the manufacturing sector continue to contract. The recent volatility in the global stock and currency markets as well as further plunge in the commodities prices all bring about uncertainties in the global economy. The market situation remains volatile and uncertain. We expect business demand will continue to be price driven adding further pressure to our margin.

Given the challenging market conditions and price driven demand, we will continue to manage our capacity efficiently, seek to lower the cost structure of the manufacturing base and improve the efficiency of the plants to maintain the competitiveness and sustain the growth of the business.

Wong Kai Chi, Kenneth

Managing Director

CORPORATE GOVERNANCE REPORT

The Group continues to commit itself to maintaining high standards of corporate governance principles and practices with an emphasis on enhancing transparency and accountability and ensuring the application of these principles and practices within the Group and thereby, enhancing shareholders value and benefiting our stakeholders at large.

The Company has, throughout the year under review, complied with the code provisions (“Code Provisions”) as set out in the Corporate Governance Code, Appendix 14 to the Rules (“Listing Rules”) Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Hong Kong Stock Exchange”) except for the following deviations:

- A.4.1 — Non-executive Directors are not appointed for a specific term. They are, however, subject to retirement by rotation and re-election at the annual general meeting at least once every three years in accordance with the Company’s Bye-laws.
- A.4.2 — The Chairman is not, while holding such office, subject to retirement by rotation or taken into account in determining the number of Directors to retire in each year. In the opinion of the Board, it is important for the stability and growth of the Company that there is, and is seen to be, continuity of leadership in these roles and, in consequence, the Board is of the view that the Chairman should not be subject to retirement by rotation or hold office for a limited term at the present time.
- A.5.1 — The Nomination Committee is chaired by Mr. Fung Wai Yiu, a Non-executive Director of the Company, instead of Chairman of the board or an independent non-executive director. Mr. Fung Wai Yiu retired as Chairman and executive Director of the Company on 31 October 2014 and he was re-designated as a Non-executive Director. The Board considers that Mr. Fung’s assumption of the role as the chairman of the Nomination Committee will ensure the stability and smooth transition during the interim period. At the board meeting held on 27 August 2015, the Board has appointed Mr. Chow Yu Chun, Alexander, an Independent Non-executive Director of the Company, as the chairman of the Nomination Committee with effect from 27 August 2015.

The Board is pleased to present the key corporate governance principles and practices followed by the Company during the year.

However, during the transitional period from 31 October 2014 to 21 May 2015, the positions of the Chairman and Group Managing Director were held by Mr. Wong. The board considered that Mr. Wong, being the co-founder of the Group, is not only well versed with the Group's business operations, he also attains extensive experience and is very knowledgeable in the brassiere manufacturing industry, therefore Mr. Wong's assumption of the role as the Company's Chairman and Group Managing Director would ensure the stability and smooth transition during the aforementioned transitional period. The Chairman focuses on managing the Board issues and supervising the management team in adherence to the long term strategic development of the Group. CORPORATE GOVERNANCE REPORT

Business Integrity

Maintaining the highest professional and ethical standards is central to the Group's core operating philosophy. The Group has formally adopted a Code of Conduct (the "Code") addressing guiding principles governing conduct of Directors, management and employees. The Code is intended to establish standards of conduct encompassing the areas in which the business operates.

In summary, executives and employees of the Group are expected to:

- Conduct business of the Group in full compliance with both the letter and spirit of the Law and of the Code.
- Maintain the highest possible standards in the way we operate and the way we treat our employees in order to satisfy the expectations of both the business and social communities.
- Use confidential information properly.
- Recognize and avoid conflicts of interest.
- Protect the ownership of property of the Group, including information, products, rights and services.
- Conduct outside activities in a way which does not compromise the individual or the Group.

There is a reporting system for any code violations. The Board reviews the Code and monitors its effective implementation periodically. There are also systems in place for risk assessment, risk identification and management, and timely corrective measures for sustainability and to nourish improvement for the business of the Group.

Communications with the Investment Community

The Company is committed to maintaining a continuing open dialogue with institutional investors and analysts to facilitate understanding of the group's management, financial position, operations, strategy and plans.

The Chairman, Vice Chairman and Chief Financial Officer have the prime responsibility for these activities, with the Chairman taking the lead in the period immediately following the interim and final results announcements.

Regular one-on-one meetings are held with the financial community which, in a number of instances, involve visits to production facilities.

The Company endeavours to be responsive to all media requests.

During the year under review, the Company has amended its Bye-Laws at the 2014 annual general meeting held on 30 October 2014. The latest version of the Company's Memorandum of Association and Bye-Laws is available on the Company's website and the HKEX's website.

Laureys under Chapter 14A of the Listing Rules of the Hong Kong Stock Exchange) hold an indirect equity interest of 56.26% in VdV via a jointly controlled corporation and therefore they are deemed to be connected persons of the Company. All transactions between VdV and the Group would constitute continuing connected transactions ("Continuing Connected Transactions") pursuant to the Listing Rules of the Hong Kong Stock Exchange. Accordingly, a master agreement dated 18 September 2005 (the "Master Agreement") had been entered into between VdV and the Company to govern the Continuing Connected Transactions and to set annual caps for the Continuing Connected Transactions in respect of the three financial years ended 30 June 2008.

The Master Agreement had been renewed by entering into (i) the 1st renewal agreement dated 12 June 2008 between VdV and the Company for a terms of three years ended 30 June 2011; (ii) the 2nd renewal agreement dated 1 April 2011 between VdV and the Company for a terms of three years ended 30 June 2014; and (iii) the 3rd renewal agreement dated 9 April 2014 ("the 3rd Renewal Agreement") between VdV and the Company for a terms of three years ending 30 June 2017.

Announcements dated 9 April 2014 and 30 April 2014 and a circular dated 2 May 2014 regarding the renewal of the Continuing Connected Transactions contemplated under the 3rd Renewal Agreement and the relevant annual caps set for the three financial years ending 30 June 2017 of HK\$140 million, HK\$170 million and HK\$200 million respectively had been published and despatched to Shareholders and an approval had been obtained from Independent Shareholders of the Company on 22 May 2014.

Details of the Continuing Connected Transactions conducted during the year under review were set out below:

Name of the Connected Person	Nature of the Continuing Connected Transactions	Amount HK\$'000	Annual cap set for the year ended 30 June 2015 HK\$'000
VdV	Sale of ladies' intimate apparel by the Group to VdV	91,452	140,000

Pursuant to Rule 14A.55 of the Listing Rules of the Hong Kong Stock Exchange, the Independent Non-executive Directors of the Company have conducted an annual review and confirmed to the Board that during the year the Continuing Connected Transactions have been entered into:

1. in the ordinary and usual course of business of the Group;
2. on normal commercial terms; and
3. in accordance with the agreement governing such transactions on terms that are fair and reasonable and in the interests of the Shareholders of the Company as a whole.

The Company's auditor was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagement 3000 "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practices Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued his unqualified letter containing his findings and conclusions in respect of the continuing connected transactions set out above in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditor's letter has been provided by the Company to the Hong Kong Stock Exchange.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF TOP FORM INTERNATIONAL LIMITED

(Incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Top Form International Limited (the "Company") and its subsidiaries (together "the Group") set out on pages 49 to 103, which comprise the consolidated and company statements of financial position as at 30 June 2015, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and the Group as at 30 June 2015, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

1 GENERAL

The Company is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange"). The addresses of the registered office and principal place of business of the Company are disclosed in the section of corporate information of the annual report.

The Company is an investment holding company. Its principal subsidiaries are engaged in the design, manufacture and distribution of ladies' intimate apparel, principally brassieres.

The consolidated financial statements are presented in Hong Kong dollars ("HK\$"), which is different from the functional currency of the Company, being United States dollars ("USD"). As the Company is a public company with shares listed on the Hong Kong Stock Exchange and most of its investors are located in Hong Kong, the directors consider that HK\$ is preferable in presenting the operating result and financial position of the Group.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements for the year ended 30 June 2015 comprise the Company and its subsidiaries (together referred to as the "Group").

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and accounting principles generally accepted in Hong Kong. These financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance, which for this financial year and the comparative period, as permitted by the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange (the "Listing Rules"), continue to be those of the predecessor Hong Kong Companies Ordinance (Cap. 32). These financial statements also comply with the applicable disclosure provisions of the Listing Rules. A summary of the significant accounting policies adopted by the Group is set out below.

The consolidated financial statements have been prepared on the historical cost basis except for certain properties that are measured at fair values, as explained in the accounting policies set out below. Historical cost is generally based on the fair value of the consideration given in exchange for goods.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 4.

The principal accounting policies are set out below.

(a) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2(h)).

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(b) Allocation of total comprehensive income to non-controlling interests

Total comprehensive income of a subsidiary is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(c) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold in the normal course of business, net of discounts and sales related taxes.

Revenue from the sales of goods is recognised when the goods are delivered and titles have passed, at which time all of the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(d) Property, plant and equipment

Property, plant and equipment including leasehold land (classified as finance leases) and buildings held for use in the production or supply of goods, or for administrative purposes, other than properties under construction, are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment, other than properties under construction less their residual values, over their estimated useful life, using the straight-line method. The estimated useful lives, residual value and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate category of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

If an item of property, plant and equipment becomes an investment property because its use has changed as evidenced by end of owner-occupation, any difference between the carrying amount and the fair value of that item at the date of transfer is recognised in other comprehensive income and accumulated in the asset revaluation reserve. On the subsequent sale or retirement of the asset, the relevant revaluation reserve will be transferred directly to retained profits.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the profit or loss.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(e) Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the item is derecognised.

(f) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the weighted average method and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(g) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(i) The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

(ii) The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

Lease prepayments are recognised in the consolidated statement of financial position and the classification is made according to their characteristics:

Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as “prepaid land lease payments” in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease and accounted for as “land and buildings” under property, plant and equipment.

Other rental prepayments

Other rental prepayments for operating leases are recognised at cost and amortised as an expense on a straight-line basis over the lease term and are presented as “prepaid rental payments” in the consolidated statement of financial position.

(h) Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchange prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rate prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non controlling interests as appropriate).

(i) Borrowing costs

All borrowing costs for non-qualifying assets are recognised in profit or loss in the period in which they are incurred.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(j) Retirement benefit costs

(i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leaves, contributions to defined contribution retirement plans, including the Mandatory Provident Fund Scheme is accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Defined retirement benefit costs

The Group's net obligation in respect of defined benefit retirement plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine the present value. The calculation is performed by a qualified actuary using the projected unit credit method.

Service cost and interest expense on the defined benefit liability are recognised in profit or loss and allocated by function. Current service cost is measured as the increase in the present value of the defined benefit obligation resulting from employee service in the current period. When the benefits of a plan are changed, or when a plan is curtailed, the portion of the changed benefit related to past service by employees, or the gain or loss on curtailment, is recognised as an expense in profit or loss at the earlier of when the plan amendment or curtailment occurs and when related restructuring costs or termination benefits are recognised. Interest expense for the period is determined by applying the discount rate used to measure the defined benefit obligation at the beginning of the reporting period to the defined benefit liability. The discount rate is the yield at the end of the reporting period on high quality corporate bonds that have maturity dates approximating the terms of the Group's obligations.

Remeasurements arising from defined benefit retirement plans comprise actuarial gains and losses which are recognised in other comprehensive income and reflected immediately in retained profits.

(k) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in Hong Kong dollars)

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(I) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from “profit before tax” as reported in the consolidated statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are permanently non-taxable or non-deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax is recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

For the purposes of measuring deferred tax liabilities or deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax liabilities and deferred tax assets for such investment properties are measured in accordance with the above general principles based on the expected manner as to how the properties will be recovered. The Group has rebutted the presumption for all its investment properties.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(m) Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

(i) Financial assets

The Group's financial assets are classified as loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instrument.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including debtors, bills receivable, other receivables, bank balances and cash) are measured at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy in respect of impairment loss on financial assets below).

Impairment of financial assets

Financial assets are assessed for objective evidence of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in Hong Kong dollars)

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(m) Financial instruments – continued

(i) Financial assets – continued

Impairment of financial assets – continued

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re organisation; or
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

For certain categories of financial asset, such as debtors, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 30 days, and observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of debtors, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses were recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

(ii) Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

(ii) Financial liabilities and equity instruments – continued

Interest expense is recognised on an effective interest basis.

Financial liabilities

Financial liabilities (representing creditors) are subsequently measured at amortised cost, using the effective interest method.

(iii) Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in Hong Kong dollars)

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(n) Impairment of other assets

At the end of the reporting period, the Group reviews the carrying amounts of the following assets to determine whether there is any indication that those assets have suffered an impairment loss:

- property, plant and equipment;
- pre-paid interests in leasehold land classified as being held under operating lease;
- prepaid rental payments; and
- investments in subsidiaries in the Company's statement of financial position.

If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

(o) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES – continued

(p) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(q) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(r) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

3 APPLICATION OF NEW AND REVISED HKFRSs

The HKICPA has issued a number of amendments to HKFRSs and one new Interpretation that are first effective for the current accounting period of the Group and the Company. Of these, the following developments are relevant to the Group's consolidated financial statements:

Amendments to HKAS 32, Offsetting financial assets and financial liabilities

The amendments to HKAS 32 clarify the offsetting criteria in HKAS 32. The amendments do not have an impact on these financial statements as they are consistent with the policies already adopted by the Group.

Amendments to HKAS 36, Recoverable amount disclosures for non-financial assets

The amendments to HKAS 36 modify the disclosure requirements for impaired non-financial assets. Among them, the amendments expand the disclosures required for an impaired asset or cash-generating unit whose recoverable amount is based on fair value less costs of disposal. The amendments do not have an impact on these financial statements as the Group does not have any impaired non-financial assets that is based on fair value less costs of disposal.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

4 KEY SOURCES OF ESTIMATION UNCERTAINTY

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the next financial year.

(a) Allowance of inventories

The Group makes allowance for inventories based on an assessment of the net realisable value of inventories. Allowances are applied to inventories where events or changes in circumstances indicate that the net realisable value is lower than the cost of inventories or that the inventories have no further use. The Group has a concentration of risk with the top five customers domiciled in the United States of America ("USA"), Europe and New Zealand comprising 79% (2014: 71%) of the Group's total revenue. Any further adverse changes in the economic environment of the USA, Europe and New Zealand may impact demand for the Group's products and the net realisable value of the inventory. The allowance also depends on management's assessment of the condition and usefulness of the inventories. Where the expectation of the net realisable value or use of inventories is different from the original estimate, such difference will impact the carrying value of inventories and the allowance of inventories in the consolidated statement of profit or loss. The Group's carrying amount of inventories as at 30 June 2015 was approximately \$189,494,000 (2014: \$177,347,000) net of allowance of inventories of \$31,983,000 (2014: \$32,445,000).

(b) Allowance for doubtful debts

The Group recognises an allowance for doubtful debts based on an assessment of recoverability of trade debtors. The Group has a concentration of risk with the top five customers comprising \$132,483,000 (2014: \$108,388,000) of total trade debtors. The Group's top five customers are domiciled in the USA, Europe and New Zealand and revenue from these customers comprised 79% (2014: 71%) of the Group's total revenue. Any further adverse changes in the economic environment of the USA, Europe and New Zealand may impact the recoverability of the trade debtors. Any change in circumstances pertaining to one of these customers would have a material effect to the carrying amount of trade debtors. Allowances are applied to trade debtors where events or changes in circumstances provide objective evidence that the balances may not be collectible. The identification of doubtful debts requires the use of judgement and estimates with reference to past performance and current events. Where the actual cash flows are less than expectations, such difference will impact the carrying value of trade debtors and doubtful debts expense. As at 30 June 2015, the carrying amount of trade debtors is approximately \$152,617,000 (2014: \$167,983,000), and no impairment loss is recognised for the current and prior years.

(c) Impairment of property, plant and equipment

As at 30 June 2015, the aggregate carrying amount of the Group's property, plant and equipment is \$117,786,000 (2014: \$125,871,000). Property, plant and equipment are considered for impairment individually. If it is not possible to estimate the recoverable amount of the individual property, plant and equipment, the Group determines the recoverable amount of the cash-generating unit ("CGU") to which the property, plant and equipment belong. The recoverable amount is the higher of fair value less costs of disposal and its value in use. The management considers that the recoverable amount of the relevant CGU to which the relevant assets belong is determined on the basis of the value in use calculation which is higher than its fair value less costs of disposal. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU and a suitable discount rate. Where the future cash flows are less or more than expected, or there are changes in facts and circumstances which result in revisions of the estimated future cash flows, further impairment loss or reversal of impairment loss may arise. Impairment loss of the Group's property, plant and equipment was \$4,208,000 for the year ended 30 June 2014. Details about impairment losses provided are set out in note 12.

5 REVENUE AND SEGMENT INFORMATION

Revenue represents the sale value of goods. The Group manages its business as a single unit and, accordingly, the manufacturing and sale of ladies' intimate apparel is the only reportable segment and virtually all of the turnover and operating profits is derived from this business segment. The consolidated financial statements are already presented in a manner consistent with the way in which information is reported internally to the Company's executive directors, being the chief operating decision maker, for the purposes of resources allocation and operating performance review.

The chief operating decision maker regularly assesses available production capacity on a plant by plant basis, however, no discrete financial information is available for each plant for the purpose of resources allocation and operating performance review. The chief operating decision maker reviews financial information on a consolidated basis. Accordingly, no separate business segment information is disclosed.

The accounting policies adopted for the preparation of the financial information reviewed by the executive directors are the same as those adopted in preparing the Group's financial statements. Segment revenue is the consolidated revenue of the Group. Segment profit or loss is the consolidated profit or loss after tax.

All the Group's segment assets and liabilities are under the manufacturing business as at 30 June 2015 and 2014.

12 PROPERTY, PLANT AND EQUIPMENT – continued

The above items of property, plant and equipment, except for freehold land and construction in progress, are depreciated on a straight-line basis at the following rates per annum:

— Land and buildings	Over the shorter of the term of the lease, or 2%–6.5%
— Leasehold improvements	20%
— Furniture, fixtures and equipment	10%–33%
— Motor vehicles	20%–30%

During the year ended 30 June 2014, the directors conducted a review of the Group's property, plant and equipment and identified certain of the Group's leasehold factory premises have been impaired. Accordingly, impairment loss of \$4,208,000 had been recognised to write down the net carrying amounts of these items of property, plant and equipment.

At end of the year	104,725	101,553

During the year ended 30 June 2014, certain land and buildings with carrying amounts of approximately \$674,000 were transferred to investment properties at fair value of approximately \$42,546,000 at their respective dates of transfer due to the change of usage as evidenced by end of owner-occupation. The difference between the carrying amount and fair value which amounted to approximately \$41,872,000 was recognised in other comprehensive income during the year ended 30 June 2014.

The fair value of the Group's investment properties at their respective dates of transfer, 30 June 2015 and 2014 have been arrived at on the basis of a valuation carried out on the respective dates by BMI Appraisals Limited, an independent qualified professional valuer not connected with the Group. The valuation was arrived at using the investment approach by taking into account the current passing rents of the properties being held under existing tenancies and the reversionary potential of the tenancies if they have been or would be let to tenant.

14 INVESTMENT PROPERTIES – continued

All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are measured using the fair value model and are classified and accounted for as investment properties.

Investment properties shown above amounted to \$86,525,000 (2014: \$85,953,000) are situated on land outside of Hong Kong on medium term lease. Investment properties amounted to \$18,200,000 (2014: \$15,600,000) are situated in Hong Kong on medium term lease.

Fair value hierarchy

The following table presents the fair value of the Group's properties measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

14 INVESTMENT PROPERTIES – continued

Fair value hierarchy – continued

Information about Level 3 fair value measurements – continued

The fair value of investment properties is determined by discounting a projected rental income series associated with the properties using risk-adjusted capitalisation rates. The valuation takes into account the current passing rents and the reversionary potentials and expected occupancy rate of the respective properties. The capitalisation rates used have been adjusted for the quality and location of the buildings and the tenant credit quality. The fair value measurement is positively correlated to the reversionary potential rent and negatively correlated to the risk-adjusted capitalisation rate.

The movements during the period in the balance of these Level 3 fair value measurements are as follows:

	Investment properties — industrial — PRC \$'000	Investment properties — residential — PRC \$'000	Investment properties — industrial — Hong Kong \$'000	Total \$'000

Currency realignment	62	10	–	72
At 30 June 2015	74,913	11,612	18,200	104,725

Fair value adjustment of investment properties is recognised in the line item “other income and gains” on the face of the consolidated statement of profit or loss. All the gains recognised in profit or loss for the year arises from the properties held at the end of the reporting period.

15 PREPAID RENTAL PAYMENTS

At 30 June 2015 and 2014, prepaid rental payments represented the prepaid rent for factories in Thailand for fifteen years until June 2024. The current portion of \$1,032,000 (2014: \$1,071,000) is included in debtors and other receivables.

Other receivables	22,054	20,909
	174,671	188,892

The Group allows an average credit period of 30 days to its trade customers. The management of the Company assesses the credit quality of the trade debtors based on payment due date. An ageing analysis of trade debtors based on the payment due date, at the end of the reporting period is as follows:

	2015 \$'000	2014 \$'000
Current	122,828	128,281
1–30 days past due	24,435	38,131
31–60 days past due	4,443	736
Over 60 days past due	911	835
	152,617	167,983

As the Group's average credit period is 30 days, a majority of the balances which as disclosed above are within 90 days from the invoice date.

Before accepting any new customers, the Group will assess the potential customer's credit quality.

Included in the Group's trade debtor balance are trade debtors with aggregate carrying amount of \$29,789,000 (2014: \$39,702,000) which are past due at the end of the reporting period for which the Group has not recognised for impairment loss. The Group does not hold any collateral over these balances. The average age of these amounts is 53 days (2014: 52 days).

18 OTHER FINANCIAL ASSETS

(a) Bills receivable

As at 30 June 2015 and 2014, all bills receivable are aged within 30 days. The Group does not hold any collateral over these balances.

(b) Bank balances and cash

Bank balances and cash comprise cash held by the Group and short-term bank deposits with an original maturity of three months or less. The bank balances carry interest at market rates which range from 0.001% to 5.67% (2014: 0.001% to 2.91%) per annum.

31–60 days past due	4,064	2,465
Over 60 days past due	1,083	799
	93,703	64,165

As the average credit period on purchases of goods is 30 days, a majority of the balances which as disclosed above are within 90 days from the invoice date. The Group has financial risk management policies in place to ensure that all payables are paid within the credit timeframe.

Other creditors and accrued charges mainly represented accrued freight charges, salaries and other operating expenses.

20 RETIREMENT BENEFIT SCHEMES

(a) Provision for long service payments

Under the Hong Kong Employment Ordinance, the Group is required to make long service payments to its employees in Hong Kong upon the termination of their employment or retirement when the employees fulfill certain conditions and the termination meets the required circumstances. However, where an employee is simultaneously entitled to a long service payment and to a retirement scheme payment (e.g. from the Mandatory Provident Fund Scheme (the "MPF Scheme")), the amount of the long service payment will be reduced by the benefits arising from the retirement scheme including investment return/(loss) accumulated in the scheme.

The most recent actuarial valuation of the present value of the Group's obligation for long service payments was carried out at 30 June 2015 by AON Hewitt, an independent firm of human resource consultants and actuaries. The present value of the Group's obligation for long service payments, the related current service cost and actuarial gain/loss were measured using the projected unit credit method.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

	2015	2014
Discount rate	1.8% per annum	1.9% per annum
Expected rate of salary increases	3% per annum	3% per annum
Long-term rate of return on contributions	5% per annum	5% per annum

The below analysis shows how the defined benefit obligation as at 30 June 2015 would have increased/ (decreased) as a result of 1% change in the significant actuarial assumptions:

	2015		2014	
	Increase in 1% \$'000	Decrease in 1% \$'000	Increase in 1% \$'000	Decrease in 1% \$'000
Discount rate	(83)	96	(141)	164
Future salary increases	62	(145)	153	(209)

The above sensitivity analysis is based on the assumption that changes in actuarial assumptions are not correlated and therefore it does not take into account the correlations between the actuarial assumptions.

(a) Provision for long service payments – continued

Amounts recognised in profit or loss and other comprehensive income in respect of these long service payments are as follows:

	2015 \$'000	2014 \$'000
Current service cost	(150)	(139)
Interest cost	28	41
Amount credited for the year (included in staff costs under general and administrative expenses)	(122)	(98)
Actuarial losses/(gains)	121	(104)
Amounts debited/(credited) for the year (included in other comprehensive income)	121	(104)
Total defined benefit credits	(1)	(202)

Movements in the present value of the long service payments in the current and prior years are as follows:

	2015 \$'000	2014 \$'000
At beginning of the year	1,576	2,173
Current service cost	(150)	(139)

Actuarial losses/(gains)	121	(104)
Benefits paid	(115)	(395)
At end of the year	1,460	1,576

A portion of the above liability is expected to be settled after more than one year. However, it is not practicable to segregate this amount from the amounts payable in the next twelve months, as future contributions will also relate to future services rendered and future changes in actuarial assumptions and market conditions.

20 RETIREMENT BENEFIT SCHEMES – continued

(b) Defined contribution schemes

The Group has joined the MPF Scheme for all employees in Hong Kong who have registered with the Mandatory Provident Fund Scheme Authority under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rules of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules. The only obligation of the Group in respect of the MPF Scheme is to make the required contributions under the MPF Scheme. No forfeited contributions are available to reduce the contributions payable in the future years.

The eligible employees of the Company's subsidiaries in the PRC are members of pension schemes operated by the PRC local governments. The subsidiaries are required to contribute a certain percentage of the relevant part of the payroll of these employees to the pension schemes to fund the benefits. The assets of the schemes are held separately from those of the Group in funds under the control of the Chinese local government.

The total cost charged to consolidated statement of profit or loss of \$22,887,000 (2014: \$25,331,000) represents contributions payable to these schemes by the Group in respect of the current year.

21 DEFERRED TAXATION – continued

At the end of the reporting period, the Group has unused tax losses of \$119,803,000 (2014: \$144,010,000) available for offset against future profits. No deferred tax asset has been recognised in respect of the unused tax losses due to the unpredictability of future profit streams. During the year, tax losses of \$17,190,000 (2014: \$1,217,000) were expired and no longer available to offset against future profits. Included in unrecognised tax losses of the Group are losses of \$50,563,000 (2014: \$60,306,000), \$13,969,000 (2014: \$25,490,000) and \$17,073,000 (2014: \$16,893,000) attributable to subsidiaries in the PRC, Thailand and Cambodia, respectively, that will gradually expire up to 2020. Other tax losses may be carried forward indefinitely.

At the end of the reporting period, the aggregate amount of temporary differences associated with undistributed earnings of subsidiaries for which deferred tax liabilities have not been recognised was \$23,919,000 (2014: \$20,490,000). No liabilities have been recognised in respect of these differences because the Group is in a position to control the timing of reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

(b) Financial risk management objectives and policies

The Group's major financial instruments include debtors, bills receivable, other receivables, creditors and bank balances. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

22 FINANCIAL INSTRUMENTS – continued

(b) Financial risk management objectives and policies – continued

(i) Market risk

There has been no significant change to the Group's exposure to market risk or the manner in which it manages and measures the risk.

(1) Currency risk

Several subsidiaries of the Company have foreign currency sales and purchases, which expose the Group to foreign currency risk. Approximately 27% (2014: 26%) of the Group's sales are denominated in currencies other than the functional currency of the group entity making the sale, while almost 64% (2014: 68%) of purchase costs are not denominated in the group entity's functional currency. The Group does not have a foreign currency hedging policy. However, management monitors the foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	Assets		Liabilities	
	2015 \$'000	2014 \$'000	2015 \$'000	2014 \$'000
Euro ("EUR")	6,833	15,365	308	–
Renminbi ("RMB")	87,909	74,578	4,842	3,406
USD	52,328	31,532	3	288
HK\$	1,952	263	69,216	38,120

The above assets and liabilities include outstanding EUR, RMB, USD and HK\$ debtors and creditors and bank balances and cash.

Sensitivity analysis

The Group is mainly exposed to fluctuations in exchange rates of EUR, RMB, USD and HK\$. For fluctuations of USD against HK\$, there will be no significant impact as HK\$ is pegged with USD.

The following table details the Group's sensitivity to a 5% (2014: 5%) increase and decrease in functional currency against the relevant foreign currencies. 5% (2014: 5%) is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in the foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 5% (2014: 5%) change in foreign currency rates. The sensitivity analysis includes external receivables and payables and also current accounts with the group entities where the denomination of the current accounts is in a currency other than the functional currency of the relevant group entities. A positive number below indicates an increase in post-tax profit or a decrease in post-tax loss for the year where functional currencies of relevant group entities strengthens 5% (2014: 5%) against the relevant foreign currencies. For a 5% (2014: 5%) weakening of functional currencies against the relevant foreign currencies, there would be an equal and opposite impact on the profit for the year.

(2) Interest rate risk

As at 30 June 2015 and 2014, the Group is exposed to cash flow interest rate risk in relation to variable-rate bank balances.

Sensitivity analysis

As at 30 June 2015 and 2014, the management expects interest rate risk will not have a material impact on the Group's operating result. Hence, a sensitivity analysis is not presented.

(ii) Credit risk

As at 30 June 2015 and 2014, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the Directors of the Company consider that the Group's credit risk is significantly reduced.

The bank balances and deposits are concentrated on certain counterparties and the credit risk on liquid funds is limited because the counterparties are banks with high credit ratings.

In respect of debtors, the Group's exposure to credit risk is influenced mainly by the market demand in the intimate apparel industry and economic conditions in the USA, Europe and New Zealand. At the end of the reporting period, the Group had a certain concentration risk as approximately 87% (2014: 65%) of trade debtors was due from the top five major customers.

(iii) Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its non derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. At 30 June 2015, the Group had undrawn bank borrowing facilities of \$158,850,000 (2014: \$147,034,000).

(c) Fair value

The fair value of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

24 SHARE OPTION SCHEME

Pursuant to a resolution passed on 3 November 2011 (the "Adoption Date"), a new share option scheme (the "Scheme") of the Company was adopted for the primary purpose of providing incentives or rewards to the Directors, employees or any other persons at the discretion of the Board, and the Scheme will end on 2 November 2021. Under the Scheme, the Board may grant options to eligible employees, including directors, executives or officers of the Company and its subsidiaries and any other persons at the discretion of the Board to subscribe for shares in the Company.

The total number of shares in respect of which options may be granted under the Scheme is not permitted to exceed 10% of the shares of the Company in issue on the Adoption Date, being 107,518,812 shares. Following the share consolidation as disclosed in note 23(a), the total number of shares which may be issued on exercise of the options which may be granted under the Scheme shall not exceed 21,503,762 shares. The number of shares in respect of which options may be granted to any individual in any 12 month period is not permitted to exceed 1% of the shares of the Company in issue at any point in time, without prior approval from the Company's shareholders. Options granted to substantial shareholders or independent non-executive directors in any 12 month period in excess of 0.1% of the Company's issued share capital and with a value in excess of \$5 million on the date of offer must be approved in advance by the Company's independent shareholders.

Options granted must be taken up within 14 days of the date of offer, upon payment of \$1 per grant. Options may generally be exercised at any time from the second anniversary of the date of acceptance to the tenth anniversary of the date of acceptance or may at the Board's discretion determine the specific exercise period. The exercise price is determined by the Board, and will not be less than the highest of the closing price of the Company's shares on the date of offer and the average closing price of the shares for the five business days immediately preceding the date of offer and the nominal value of the Company's shares. During the years ended 30 June 2015 and 2014, no share options were granted, exercised, cancelled or lapsed.

As at 30 June 2015 and 2014, no share options of the Company were being held by the Directors or anyone else under the Scheme.

25 OPERATING LEASE COMMITMENTS

(a) The Group as lessee

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases in respect of land and buildings, which fall due as follows:

	2015 \$'000	2014 \$'000
Within one year	11,087	12,433
In the second to fifth year inclusive	21,491	25,024
Over five years	5,925	9,909

28 CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of equity attributable to owners of the Company, comprising issued share capital, reserves and retained profits.

The Directors of the Company review the capital structure on a quarterly basis. As part of this review, the Directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the Directors, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of debt.

29 PRINCIPAL SUBSIDIARIES – continued

- * Directly held by the Company
- # These subsidiaries are registered as wholly foreign owned enterprises in the PRC.
- ^ This subsidiary is registered as a sino-foreign equity joint venture in the PRC.

Note: Except for those subsidiaries with the place of operation mentioned in principal activities, the place of operation is the same as the place of incorporation.

Shenzhen Top Form Underwear Co., Limited 深圳黛麗斯內衣有限公司 (“SZTF”) is a joint venture company established in the PRC and was originally held for a period of twelve years from 28 February 1987. The Group entered into extension agreements with the joint venture partner on 18 September 1998, 12 November 2008, 27 June 2011 and 6 February 2015 to extend the joint venture period for future years to 28 February 2009, 28 February 2012, 28 February 2015 and 28 February 2017 respectively. Pursuant to the joint venture agreement and the revised joint venture agreement under which the joint venture was established, the Group contributed 70% of the registered capital of SZTF. However, under another agreement entered into between the Group and the joint venture partner, the Group is entitled to 100% of this joint venture company’s profit after deducting a fixed annual amount attributable to assets contributed by the joint venture partner. The Group is entitled to receive its attributable share of the net assets upon liquidation of the joint venture, and so this joint venture is being accounted for as a subsidiary of the Group.

As at 30 June 2015, all of the deferred shares issued by subsidiaries were held by group companies. The deferred shares carry no right to dividend or to receive notice of or to attend or vote at any general meeting of the respective companies. On winding-up, the holders of the deferred shares are entitled to one half of the remaining assets of the respective companies after the first \$100 trillion has been distributed equally amongst the holders of the ordinary shares.

None of the subsidiaries had any debt securities subsisting as at 30 June 2015 or at any time during the year.

The above table lists the subsidiaries of the Group which, in the opinion of the Directors, principally affected the Group’s assets or results. To give details of other subsidiaries would, in the opinion of the Directors, result in particulars of excessive length.

30 AMOUNTS DUE FROM/(TO) SUBSIDIARIES

The amounts due from/(to) subsidiaries are unsecured, interest-free and have no fixed terms of repayment. At 30 June 2015, amounts due from certain subsidiaries of \$73,867,000 (2014: \$73,867,000) were determined to be impaired and impairment losses were made.

31 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 30 JUNE 2015

Up to the date of issue of these financial statements, the HKICPA has issued a few amendments and new standards which are not yet effective for the year ended 30 June 2015 and which have not been adopted in these financial statements. These include the following which may be relevant to the Group:

	Effective for accounting periods beginning on or after
<i>Annual improvements to HKFRSs 2012–2014 cycle</i>	1 January 2016
<i>Amendments to HKAS 16 and HKAS 38, Clarification of acceptable methods of depreciation and amortisation</i>	1 January 2016
<i>Amendments to HKAS 1, Presentation of financial statements</i>	1 January 2016
<i>HKFRS 15, Revenue from contracts with customers</i>	1 January 2018
<i>HKFRS 9, Financial instruments</i>	1 January 2018

The Group is in the process of making an assessment of what the impact of these amendments is expected to be in the period of initial application. So far the Group is still evaluating the impact and is not yet in a position to conclude.

In addition, the disclosure requirements of Part 9, "Accounts and Audit", of the new Hong Kong Companies Ordinance (Cap. 622) will be applicable for the first time to the Company's financial year ending 30 June 2016 in accordance with the Listing Rules. The Group is in the process of making an assessment of the expected impact of the changes in the Hong Kong Companies Ordinance on the consolidated financial statements in the period of initial application of Part 9. So far it has concluded that the impact is unlikely to be significant and will primarily only affect the presentation and disclosure of information in the consolidated financial statements.
